

This is how our return process works

Step 1

You can register your return within 14 days of receipt at the bottom of the page on our webshop. For this you will need the order number and your email address. Your order will now appear on the screen. You can now indicate which items you want to return.

Step 2

After submitting your request, a form will be created. Print this form.

Step 3

Our customer service will contact you within 48 hours on working days to determine how we can best handle your return request to your satisfaction.

Step 4

Carefully pack the items in a shipping box and include the form you have printed out.

Step 5

Take the package to a delivery point of the carrier in your area.

Step 6

We will refund the purchase price including the shipping costs (of our standard shipping method) of the returned items to the account number or credit card used for payment.

Only complete and return this form if you wish to terminate/withdraw from the contract.

I hereby inform you that I am withdrawing from my/our contract relating to the sale of the following items:

- Towingmirrors
- Seatcovers
- EMUK Airlift
